Art curriculum

Intent:

Our intent for Art and Design is that learners will explore a diverse range of traditional and contemporary Artists, Craftspeople and Designers, fostering their curiosity and understanding of the world around them. Learners' experiences will enable them to develop an appreciation of their own and other cultures and how artistic styles have been influenced over time. Through high quality art lessons learners will become reflective critical thinkers with the abilities to express themselves creatively. They will learn to evaluate their own work and the work of others. A well-sequenced art curriculum will allow learners to make continued progression through the refinement of skills and building on prior knowledge. Learners will have the opportunity to apply their skills and knowledge in a range of contexts. Learners will be exposed to art in the local community, galleries and museums to inspire and inform their creative practice.
